The railroad bridge at Erie has been resuilt, and the track at Harbor Creek relaid. The cars commenced run ninn regularly again this morning. Strong measures have been taken to prevent future outrages.

> Death of Hon. John S. Barbour. Вантімови, Jan. 15, 1855.

The Hon. John S. Barbour died at his residence is Culpeyper, Va., of disease of the heart.

News from Havana. ARRIVAL OF THE ISABEL AT CHARLESTON.

Charleston, Jan. 14, 1865.
The steamship Isabel has arrived at this port, bringing Havana and Key West dates to the 11th inst. The Philadelphia, from New Orleans, arrived at Hava ma forty-eight hours behind her time, with her rudder much injured, and owing to heavy weather had been obliged to throw three hundred barrels of flour over-

The Falcon was three days overdue at Havana, and fears were entertained for her safety.

The English steamer arrived there on the 10th from

Vera Cruz.

The news from Havana is unimportant.

The Southern Convention In the convention being held here, resolutions were accepted to day in favor of a specific duty on sugar and molasses; for the enlargement of the Louisville canal;

for the actablishment of a naval depot at New Orleans; arging the necessity of the Tehrantepec route, and ask-ing apprepriations from Congress for a railroad or ship canal across Fiorida.

Large Fire in Menroe

MONROE, Mich., Jan. 15, 1855. A large fire broke out here at three o'clock yesterday morning. Two millinery stores, one hardware store, the telegraph office, the Exchange Hotel, a dry goods store, and the law office of Hon. A. Gobbles, were burned The hotel was valued at \$15,000, and was only insured for \$9,000. The remainder of the loss has not yet been

The buildings and property destroyed were valued at \$36,000. The fire originated in a millinery store. The loss of Mr. Taylor, dealer in hardware, is unknown. Insurance, \$12,500. Mrs. Brooks', milliner, loss is \$3,000. Insurance, \$2,000. The instruments and books of the of the Exchange Hotel, is about \$3,000. Insurance

The Milwaukie Fugitive Slave Case. MILWAUKIE, Jan. 15, 1855.

S. M. Booth has been found guilty of assisting the scape of the fugitive slave Glover.

A Strange Case.

COLD SPRINGS, Jan. 15, 1855. A man was found in the tunnel at Garrison's, near ais place, just after the last train on the Hudson River Railroad had passed through, on Saturday night, nearly lead. He was immediately brought here on a hand car, and recovered sufficiently to give his name, Patrick Don nelly, but nothing more could be ascertained, and shortly afterwards he died. It is thought he must have bee travelling towards New York, and was struck by a train oming south.

PHILADELPHIA, Jan. 15, 1854. Mr. G. G. Foster has been further held under a complaint for passing a note to Mr. C. Glen Peebles, of three bundred and fifty dollars, purporting to have been drawn by Wm. E. Burton, Esq., which note has since been pronounced a forgery.

Pearl street, one door below Maiden lane.

Pairs, Unhappiness,—These proceed in a majority of cases from physical causes. Nover disregard these warnings; you cannot bave pain, or a sense of approaching evil, but from the presence of those humors in the body, which purgation is sure to remove. Sudden death, long attacs of sickness, are prevented by those means. When you cannot sleep well, when your head feels heavy, or you have pain in any part, but especially in the temples, with throbbing, fly at once to BRANDREH'S FILLS.

Take from three to six—they will be sure to do you good. The next day, even, you will feel a new creature. Should these warnings have remained some time unheeded, rheumatisms, fevers, small pox consumption, appendexies, costiveness, billious affections, journile, dropsy, piles, or some other form of disease, will present itself, but even then, no medicine is equal to Brandreth's pills. Use them, in these cases, according as the symptoms may seem to require; they will cure sooner than all the medicine of the drug store.

In order to know truth from conjecture, we must be guided by the light of experience. One hundred and three years have proved Brandreth's pills and the human body are mutually adapted one for the other; they entirely regenerate and purify the blood; they are sure to do good, because they only take out of the body what is huriful. I can refer to those who have used thom over seventy years.

Man will be born to days of comfort, compared to

is huriful. I can refer to those who have used them over seventy years.

Man will be born to days of comfort, compared to what has formerly been his lot, weighed down as he has been by disease, infrantices and suferings, which no earthly power knew how to relieve until this blessed medicine was discovered. And yet, comparatively, how few have availed themselves of its great benedital. Not over one in twenty in the Union use it. Oh, prijudice, tatal prejudice, when wilt thou relax thy iron graspupon the intellect of mankind?

Must the world continue to use baneful mercury, to lose blood, to be thus often ruined in constitution, when Brandreth's pills would, in three days, have restored the patient to an improved state of health. Over one million persons have experienced their good effects, and ally recommend them to the afflicted.

Brandreth's pills are sold at 25 cents per box, with full directions, at the prucipal office, Brandreth's build ing—entrance 45 Cansi street; also, at the branch offices, 241 Hudson street, and 274 Bowery. B BRANDRETH.

mil directions, at the principal office, frandreth's build ing—entrance 43 Canal street; also, at the branch offices, 241 Rudson street, and 274 Bowery. B BRANDRETH.

Dr. Hunter on Diseases of the Thront and Lungs—To the Editor of the New York Herald—Sir—The encouragement I have received from the press, in my efforts to bring about a reform in the treatment of the most prevalent and fatal class of maladies incident to this climate, and the gratifying recognition of my labors, both by the press and the profession, induce me to believe that a series of popular articles on the nature, causes and treatment of diseases of the throat and lungs, comprising catarrh, sore throat, laryngitis, bronchitis, asthma and consumption, will not be unappreciated by your readers. To me it seems a duty the physician owes to the cause of humanity, no less than to his own professional character, to difine more generally among the mans of the people a knowledge of the causes of disease, and their most appropriate remedies—particularly so in regard to those alloctions which I propose to disease and their most appropriate remedies—particularly so in regard to those alloctions which I propose to disease implication of dray of the propose of the propose of the propose of the selecting the organs of respiration; and yet, in no class of diseases is the wrong, the cruel deception of the empiric, so aggravated, so inexcusable. The lamentable failure of our profession to arrest the progress of these diseases to the present time, fills the mind of the sufferer with forebodings of ill, and apprehensions of inevitable fatality. Kerry offer of rehef is, therefore, grasped at with the avidity of a drowning man; and the wretch is not more to be deprecated, who would hold out a straw to save the one from drowning, that is he, on the other hand, who speculates in the lives of his fellows, in the vending of a nostrum for the paltry consideration of lure. We all know to what an aiarming extent this practice of quackery, in the saie of patent medicines,

Justa when he mast requires his aut, files of to every ignits. Jainus which presents itself; and thus, in ignorance, noatrums find sale only because the people are unacquainted with the laws of health, the causes of diseases, and the proper means of cure. They are abandoned to the mercy of the unscrupulous, at the very moment when they most require protection, by those who profess to be the curators of their health and lives. Let the physician remove this ignorance, by plain common sense articles in the journals read by the people. Let them meet the requirements of the times, by diffusing such information abroad as shall arm the people against the avarice and inhumanity of those who would traffic in the health and lives of their tellows. Let them come out from behind the screen of professional dignity, and talk to their fellow-currens as man to man—giving them, in every possible manner, correct views on the subject of health and its best pre-creative. I am happy in taking advantage of this opportunity, to acknowledge the causid and cordial co-operation of my professional brethren, who are either themselves under my treatment for Philais, or are conducting cases in their practice under my direction—several of whom have had the fram ness and generally advanced or experienced, as resulting from my treatment by inhulation. For my own part, I regard the rule of silence so rigicily observed by the profession generally, adverse alike to their own interests and the welfare of the community, and "more honored in the breach than the observance" The subject of the letters which are to follow has engaged my most earnest and laborious study and observation for many years. I cannot conceive that I do my profession any injustice by giving publicity to the resurts of my research and experience on this peculiar treatment. I have shared netter expense no toil in dissentinating my views and experience on this peculiar treatment. I have spared netter expense no toil in dissentinating my views and experience on this peculiar treatm
